A 10'x10' Kitchen is a sample kitchen used for universal price comparisons across different cabinet types and styles. The kitchen industry uses the 10'x10' kitchen layout to give the consumer a general idea of what that cabinet door style costs. The actual cabinet order for your layout may be more or less, based on overall size and cabinet options selected. The 10'x10' Sample Kitchen is based on Shaker White cabinets from US Cabinet Depot.

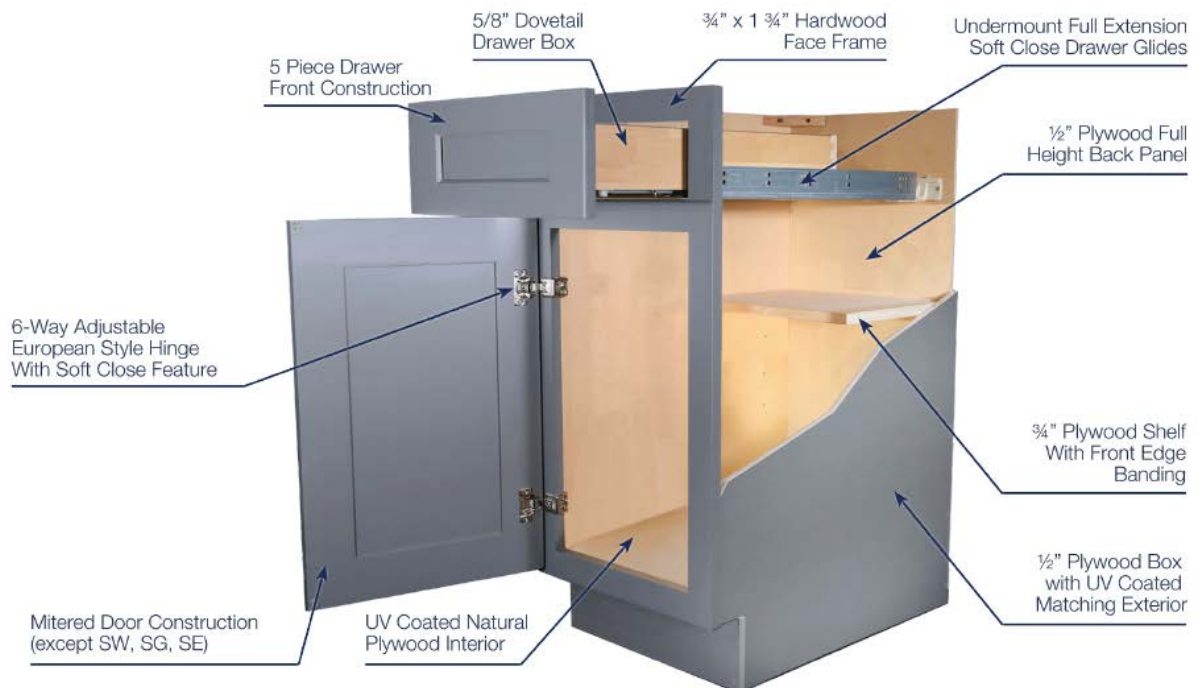

Included in the price are the cabinets & assembly. The price does not include shipping, tax, installation, crown molding, decorative hardware, counter top, sink/faucet, or appliances.

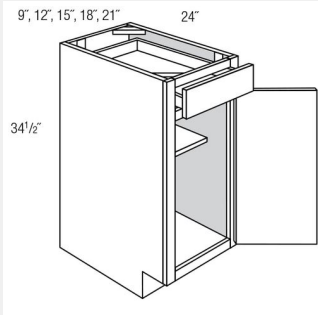

Product Details:
